

Testimony – Richard J Tkach,

I was raised in the Catholic Faith since an early age and had two wonderful role models in my parents who were very involved in the church as religious educators, ushers and helping those on spiritual retreats. We would attend church services frequently and were encouraged to join Bible studies and help out with outreach programs.

When I became a young adult I took some of these spiritual retreats with my peers and they encouraged me to strengthen my faith and increased my thirst for The Word. Since then, I have been a faithful member of St Irenaeus Parish in Cypress since 1989 and currently participate in several ministries including lecturing, health ministry, religious education and serving the homeless.

I have worked for McDonnell Douglas and Boeing since 1989 and have increased my scriptural knowledge immensely by participating in Bible Studies at Douglas Christian Fellowship and Boeing Christian Fellowship and by serving on the Board of Douglas Christian Fellowship
